

CONSULTING AND SEMINARS

ADVANTAGE
WORKCOMP SERVICES

Consulting and Seminar Services

Efficient processes are essential in meeting your organization's goals. Advantage WorkComp Services' consulting and seminar professionals are highly experienced and know what works and what doesn't. Let us share that knowledge with you and help you achieve maximum efficiency with minimal personnel requirements.

Advantage employs a consulting team that can show you how to increase accuracy, reduce personnel requirements and measure performance in bill review, utilization review and claims management. Our fraud experts can assist you in setting up a fraud detection program and produce results that will increase your return on investment. We even have an IT consulting team that can assist you with systems development projects.

Our vocational rehabilitation group offers return to work seminars that have earned wide acclaim among employers. We can either train clients directly or train your personnel to implement your own program. Effective return to work efforts can reduce the cost of lost time due to injuries and keep an injured employee contributing to an organization.

Advantage wants you and your clients to see positive effects directly on the bottom line. That's why we offer more than 25 different topics in our safety seminar training. Our program will empower your clients to implement safe workplace practices and help prevent accidents from occurring.

Leverage the programs and experience behind Advantage WorkComp Services to your advantage. Our consulting and seminar programs can help your company not only meet its goals, but also exceed them. Our focus is to develop a partnership with you that will make your business stronger.
